Community Wellness Collective

CWC H.E.A.R.T. = Housing, Employment, Addiction, Reintegration Team

The Community Wellness Collective (CWC) was formed in 2018 in a response to an increase in mental health and substance abuse and support for social determinants of health needs. Through the H.E.A.R.T program areas, the CWC serves groups of people who are at a higher risk of experiencing adverse health, social and economic outcomes, including homelessness.
